The math program is now our main focus and we are evaluating how to improve it. We are committed to quality professional development for staff in all areas. This summer three of our teachers, Mr. Muth, Mrs. Buhler, and Mrs. Chiccourat are attending a Writers Workshop Program. PTC partially funding their trip. We are looking at grading practices, want to be sure students are understanding concepts and that teachers are effectively giving feedback to students. Looking deeper into RENlearn and standards; are they accurate?</p> <p>Question asked: Can the school provide an after school tutoring program for students that are struggling? Cara: data has shown that does not help.</p> <p>-Back to school feedback: What do parents want to get out of it from the teachers?</p>	Cara Alfonso
